- ✓ Hexagon Getting Started Videos - FREE
- ✓ eSupport How-To videos on a wide range of topics - FREE with your Software Maintenance Plan
- ✓ Planit Smart Guides - FREE quick start guides with step-by-step instructions and links to videos
- ✓ eLearning Videos - interactive training videos for self-paced learning - CAD Pricing available (\$300 - \$900)

Online software installation and basic training

- ✓ Installation and Getting Started plan, including one standalone installation, a guided tour of your resources, and a basic setup overview to get you started.
- ✓ 10 hrs online
- ✓ Scheduled ad hoc through our Online Appointment Scheduler

What to expect

The typical new Cabinet Vision user will be fully operational and enjoying the efficiency gains from their new software within 9 to 12 months.

Our online 1-on-1 training sessions should typically be scheduled in 1.5-hour blocks once or twice weekly.

Who is this for?

- ✓ Highly dedicated and self-motivated learners
- ✓ Users willing to commit to managing and scheduling both their self-paced learning and their online one-on-one time with a technician.
- ✓ Users looking for the most affordable option and willing to take longer to be fully operational.
- ✓ Users willing to purchase more service hours as needed to complete training and setup.

Base price for the ESSENTIAL training plan

- + eLearning videos à la carte
- + Additional training and setup options

PRO

\$855.66<sup>CAD</sup> / Monthly\*

\$7,700 CAD / 6-9 months to operational

Self-guided Training

- ✓ Hexagon Getting Started Videos - FREE
- ✓ eSupport How-To videos on a wide range of topics - FREE with your Software Maintenance Plan
- ✓ Planit Smart Guides - FREE quick start guides with step-by-step instructions and links to videos
- ✓ eLearning Videos - interactive training videos for self-paced learning - CAD Pricing available (\$300 - \$900)

Online software installation and basic training

- ✓ Installation and Getting Started plan, including one standalone installation, a guided tour of your resources, and a basic setup overview to get you started.
- ✓ 2 consecutive days onsite\*
- ✓ 16 hours online

What to expect

The typical new Cabinet Vision user will be fully operational and enjoying the efficiency gains from their new software within 6 to 9 months.

Your two consecutive days of training and setup onsite will provide dedicated development time with few interruptions.

Our online 1-on-1 training sessions should typically be scheduled in 1.5-hour blocks once or twice weekly.

Who is this for?

- ✓ Users willing to commit to self-guided basic training.
- ✓ Users looking to invest in two full consecutive days of focused training with a technician onsite.
- ✓ Users looking to leverage the knowledge and experience of a Planit technician onsite in their shop to shorten the path to success with the software.

Base price for the PRO training plan

- + eLearning videos à la carte
- + Additional training and setup options
- + Travel expenses for 2 onsite days

ELITE

\$2,166.67<sup>CAD</sup> / Monthly\*

\$13,000 CAD / 3-6 months to operational

Self-guided Training

- ✓ Hexagon Getting Started Videos - FREE
- ✓ eSupport How-To videos on a wide range of topics - FREE with your Software Maintenance Plan
- ✓ Planit Smart Guides - FREE quick start guides with step-by-step instructions and links to videos
- ✓ eLearning Videos - interactive training videos for self-paced learning - CAD Pricing available (\$300 - \$900)

Online software installation and basic training

- ✓ Installation and Getting Started plan, including one standalone installation, a guided tour of your resources, and a basic setup overview to get you started.
- ✓ 5 days onsite\* + travel expenses, which includes your selection of the following, according to your priorities: library creation, reports, bid centre, machine integration, or additional training
- ✓ 10 hours online basic training

What to expect

The typical new Cabinet Vision user will be fully operational and enjoying the efficiency gains from their new software within 3 to 6 months.

Your five consecutive days of training and setup onsite can be tailored to your goals and needs. Our technician will work with you to develop a plan for your onsite week that will leave your team ready to hit the ground running with your new software.

Who is this for?

- ✓ Users who have orders to fill and need to get started immediately.
- ✓ Users looking to invest in five full days of focused training with a technician onsite.
- ✓ Users looking to accelerate their path to success in a condensed and intensive week with a Planit technician.

Base price for the ELITE training plan

- + eLearning videos à la carte
- + Additional training and setup options
- + Travel expenses for 5 onsite days
